

Medical Application Policy*

Restrictions

NOTICE REGARDING MEDICAL APPLICATION RESTRICTONS: Effective June 1, 2007, Dexco Polymers LP, a Dow/ExxonMobil Venture, will not knowingly sell or sample any VECTOR[†] styrenic block copolymer product(s) into any commercial or developmental application that is intended for:

- Long term contact with internal body fluids or internal body tissues. Long term is a use which exceeds 72 continuous hours;
- Use in cardiac prosthetic devices regardless of the length of time involved. Cardiac prosthetic devices include, but are not limited to, pacemaker leads and devices, artificial hearts, heart valves, intra-aortic balloons and control systems, and ventricular bypass assist devices;
- Use as a critical component in medical devices that support or sustain human life; or
- Use specifically by pregnant women, or in applications designed to promote or interfere with human reproduction.
- *Use in pharmaceutical applications, other than pharmaceutical packaging.*

Expectations

As part of our commitment to Responsible Care, we will make health and safety considerations a priority in planning for all existing, new and developmental products. We will structure and review customer relationships in a manner to discourage indirect supply for prohibited applications without the knowledge of Dexco Polymers LP.

In addition, new business opportunities involving medical applications will require a business assessment prior to selling or sampling Dexco products.

Authorized distributors and resellers will adhere to this medical policy.

Dexco Polymers LP does not endorse or claim suitability of its products for specific medical applications. It is the responsibility of the medical device or pharmaceutical manufacturer to determine that the Dexco product is safe, lawful, and technically suitable for the intended use. DEXCO POLYMERS LP MAKES NO WARRANTIES, EXPRESSED OR IMPLIED, CONCERNING THE SUITABILITY OF ANY DEXCO PRODUCT FOR USE IN MEDICAL APPLICATIONS.
